Customer Call Problem

D and C

Cause of Problem

Delivery and Commissioning

Service Action Firstly, we checked around the machine condition at visual. We checked the engine oil level, coolant level and wiring connection. We checked by the DSC form. And we test run the machine. All was ok. Job was finished.

Service Suggestion Remark - We can't use the synchronising system. Because of other machines was damage the main alternator coil. So we can't install the synchronising system. But, our machine can use with load by manual system.

No.	Part Description	Part No.	Qty	Remark
