	Date	Status	Job Types/Number
1	16.12.24	Attend	Today bought the needed accessories for Hpa-An site and went to Hpa-An branch from Mawlyine branch. At Hpa-An customer U Myint Oo site, set up 8KW hybrid inverter with a ML 280Ah battery. Installed Ac wiring system inverter to Ac breaker and made connection wifi monitoring system. After all the ESS system, we had tested some lighting loads with only battery. It was ok. But we had not tested with Epc because Epc is down. So that tomorrow we'll testrun with Epc when the electricity goes on.
2	17.12.24	Attend	Did Morning exercise at Hpa-An branch. Went to customer U Myint Oo site, testrun loads with Epc and it was ok. And Explained how to use the system to the customer. Then we went to survey for two sites in the town.
3	18.12.24	Attend	Went back to Mawlamyine branch from Hpa-An branch. Then went to survey at the Royal Hintha Hotel and explained about solar system to the customer. Afternoon, went to survey the monastery in Mudong. We asked about the location of the inverter and the loads that will be used and explained in detail.
4	19.12.24	Attend	Did Morning exercise at Mawlamyine branch. And went to U Aung Thein (cold storage), the battery SOC was not matched, and the cell calibration was done. Tried charging/discharging with solar and battery. It was ok. Did Morning exercise at Mawlamyine branch. And went to U Aung Thein (cold storage), the battery SOC was not matched, and the cell calibration was done. Tried charging/discharging with solar and battery. It was ok. Did Morning exercise at Mawlamyine branch. And went to U Aung Thein (cold storage), the battery SOC was not matched, and the cell calibration was done. Tried charging/discharging with solar and battery. It was ok.
5	20.12.24	Attend	At U Aung Thein (Cold storage), the Inverter bms communication alarm went up so we changed the new Bms cable and it is fine. Charge/Discharge (Voltage, Amp, SOC) has returned to normal. Told the customer for sure about issues the fault.
6	21.12.24	Holiday	Went to Bilin Tsp from Mawlamyine branch. At Thoo Ka Baw Motel customer U Da Nu (Bilin Tsp), made connected the inverter wifi monitoring system. Then explained to the customer how to use get well the solar system and how to check the data analysis in the software. Therefore we went back from Bilin to Yangon
